## iOS Developer

Highly skilled iOS Developer with 3+ years of experience delivering exceptional results through innovative app development, optimization, and integration. Experience of iPhone mobile application development and testing on device and simulator using x code and swift. Skilled in API integration, testing, and debugging to ensure app stability and performance. In previous roles developed 10+ iOS apps that were downloaded over 500K times.

My skill set includes:

**iOS Frameworks:** Extensive experience with UIKit, CoreData and other essential iOS frameworks, allowing me to build robust and performant applications.

**API Integration:** Experience in integrating RESTful APIs and other data sources to fetch and manage data from servers and external services.

**Core Data:** Understanding of Core Data framework for local data storage and management, including data modeling, fetching, and persistence.

**UI/UX Design:** Ability to create engaging user interfaces adhering to Apple's Human Interface Guidelines, ensuring a seamless and intuitive user experience.

**Testing and Debugging:** Thorough understanding of unit testing, UI testing, and debugging techniques to deliver stable and bug-free applications.

**Networking:** Knowledge of URLSession and third-party libraries like Alamofire for handling network requests and responses securely and efficiently.

## SKILLS

---

App Store deployment and distribution, Auto Layout, Core Data, Debugging and troubleshooting, Multithreading and concurrency, Networking (RESTful APIs, JSON, XML), Swift programming language, Third-party API integration, UIKit framework
